

OUTLINES.

President Roosevelt and the House Committee on Agriculture yesterday came to terms on the meat inspection bill and it will be rushed through Congress; the government pays the cost of inspection, there will be no court review clause and no requirement for labels to be dated.—The Lake Erie and Ohio River ship canal bill was passed by the Senate yesterday.—In the Senate yesterday Tillman and Hopkins again locked horns over the investigation of National banks for making political contributions.—A crew of 35 and one passenger were rescued yesterday from a steamer stranded on Fire Island, New York.—The seven-year-old son of Jeweler Muth, of Philadelphia, who was kidnapped from school a week ago, was found yesterday and his kidnapper captured after being fired upon; the criminal turned out to be John J. Kean, once a respectable man and a former bank clerk who said he committed the crime because he needed money.—Chief of Police William Renfro, of Dorchester, Va., was shot and killed in Roanoke Sunday night.—Troops are patrolling Bialystok, Russia, but it is a place of desolation since the massacre of Jews, 150 having been slain including some Christians.—The Tobacco Trust was indicted in New York yesterday by the government.—A wealthy New Yorker has contributed \$250,000 to the Y. M. C. A. for marines and soldiers established at Norfolk by Miss Anna Gould.—Rain has retarded the transplanting of tobacco and the Agricultural Department is yet unable to estimate the acreage.—New York markets: Money on call steady, 2 1/2 to 4 per cent, ruling rate, 3 1/2, closing bid 2, offered at 3; spot cotton steady 11 1/2; flour steady; wheat irregular, No. 2 red 94 1/2 nominal elevator; corn easy, No. 2 60 1/2; oat elevator; oats barely steady, mixed 45 1/2; turpentine firm, 60 1/2 to 61; rosin firm.

Well, it does look rather hard to put it up to the packers to pay for the inspection, and probably the inspectors.

Many a man would like to pay his own expenses for the privilege of traveling as President of the United States.

If The Hague Tribunal hasn't lost its job it might make an effort to arbitrate the numerous differences between President Roosevelt and Congress.

If Congress doesn't soon adjourn there may be other Congressmen besides Senator Tillman who can get along without paying calls at the White House.

It is getting to be dangerous as well as unhandy for a woman not to have a husband. Recently a girl in Illinois broke her arm while reaching around to button her shirt waist down the back.

Senator Benson, the new one from Kansas, denies that he will attempt to reform the United States Senate. His denial probably came after he got to Washington and saw what he was up against.

"What will the proposed meat inspectors be worth anyhow?" asks a contemporary, trying to throw off on the proposed meat inspection bill. How do we know what the packers are willing to pay for 'em?

Neill and Reynolds made the inspection of the packing houses for President Roosevelt. It is said that Neill is a doctor and Reynolds a lawyer, but it will be mighty hard to convince the packers that they are not both blacksmiths.

Representative Wadsworth, chairman of the House Committee on Agriculture, who bucked up to Roosevelt in the controversy over the meat inspection bill, represents a New York district. He is the man who dared to tell the Man With the Big Stick that he is "Very, very wrong."

Says the Norfolk Landmark: "Mr. Crumpacker takes up the cudgels for the meat packers. It is quite natural that all the packers should stand together." Now, if the packers will only can Crumpacker and label the can so we can fight shy of it, all will be forgiven.

Says the Washington Star: "A Newport bell has introduced a new fashion of wearing the veil, which conceals all of the features but the eyes, after the Turkish style." This may prevent a fellow from falling in love at first sight, for some girls won't have the face to expect a man to fall a victim to her eyes.

THE SUMMER SCHOOL

Interesting and Instructive Addresses Were Heard at Wrightsville Yesterday.

THE SERVICES ON SUNDAY

Mass Meeting and Model Sabbath School Were Well Attended—An Increased Number of Visitors and Much Interest.

The attendance upon the Sunday School Training Institute at Wrightsville Beach showed a much larger attendance yesterday and there is an increase of interest in all lines of the work. The visitors are having a very pleasant time at the seashore and already the school may be said to be a great success.

The mass meeting in the interest of Sunday Schools on Sunday was largely attended and the model Sunday School taught by Dr. Hamill was productive of much interest and profit to the large number who attended, many being from this city. In the afternoon Dr. Scherer, of Newberry College, made a most interesting and instructive address. It was much regretted that Bishop Atkins, of the Western North Carolina Conference, could not be present to preach and take part in the School yesterday as was expected. However, other speakers were assigned and the programme was carried out fully as previously announced.

The subject yesterday morning was "Christ's Ministry" and it was handled in a masterly way by Dr. Hamill. "Promotion Day" was interestingly treated by Mrs. Hamill and Dr. Hamill spoke with force on "The Seven Laws of Teaching." Grading the School was the subject of an interesting lecture by Dr. Carre. Problems of the Orient were outlined and told of by Dr. Scherer in a unique and pleasing manner and the day's exercises closed at 4 P. M. with an instructive talk by Dr. Hamill on Supplemental Work. On all trains visitors are arriving and it is expected that by today the attendance will have reached several hundred. The programme today consists of a variety of subjects of an interesting and valuable nature to all Sunday School workers.

Market House Affray.

Justice Furlong yesterday gave preliminary trial to Hartsfield Crandall and "Country John" Williams, the two participants in the recent Market house affray, who were not previously tried by the Mayor. Woodus Kellum, Esq., appeared for the prosecution and Thos. D. Meares, Jr., Esq., for Crandall. "Country John" was found guilty of only a simple assault and was let off with the costs. Crandall was bound over to the Superior Court on the charge of an assault with a deadly weapon. He was recognized with his attorney in the sum of \$50 for his appearance to-day to fix permanent bond.

To Inspect Naval Reserves.

The annual inspection of Wilmington Division, Naval Reserves, will take place Thursday of this week. The Division is called to assemble at the armory this evening at 8:15 o'clock for preparatory drill. The inspection next Thursday will be by Inspector General T. H. Bain, of Goldsboro, who will probably be accompanied by Capt. T. C. Daniels, commanding the North Carolina Naval Brigade, and Lieut. F. H. Shipp, adjutant of the Brigade. The Wilmington Division is now in fine shape and will stand one of the best inspections of years.

THE HOTEL TARRYMORE.

Popular Hospitality Filled With Guests at Wrightsville Beach.

The Hotel Tarrymore, on Wrightsville Beach, is rapidly filling with guests and the round of pleasures at that popular holsters is being enjoyed to the fullest extent by everyone. The Tarrymore is one of the most delightful hotels at a seaside resort in the South—a fact which the public is fast coming to realize. It is within twenty minutes' ride of the city and is the first stop on the beach. Nothing is overlooked to add to the comfort and convenience of guests. Bathing at the hotel is comparatively free from danger and fishing may be enjoyed from boats or from the pier in close proximity. Mr. W. J. Moore, the genial manager and proprietor of the Tarrymore, would be pleased to quote rates and give any information whatever. He may be addressed at Wrightsville Beach, and all inquiries will receive prompt attention.

AT BLADEN STREET CHURCH

Interesting Services Sunday—Excellent Quartette Singing.

The services at Bladen Street M. E. church Sunday were full of interest for the two large congregations assembled that day. Rev. J. H. Friezell, of Sanford, preached a strong sermon in the morning and Rev. Euclid McWhorter at night. In the afternoon the Sunday School had an excellent address by Mr. Griffin, a great Sunday School worker of Mattee.

One of the most interesting and enjoyable features of the services during the day was the singing of the Conference Male Quartette which is at the beach in attendance upon the Sunday School Institute. The Quartette is composed of Rev. E. McWhorter, of Maxton, first bass; Mr. R. M. Phillips, of Raleigh, second bass; Rev. A. J. Parker, of Wilmington, first tenor, and Rev. J. H. Friezell, of Sanford, second tenor.

DIED IN COUNTY JAIL.

Federal Prisoner Serving Sentence From This County.

James E. Jackson, an old colored man, convicted of retelling at the late term of the Federal Court and sentenced to thirty days in the county jail, died in prison Sunday night a few days before the expiration of his term. He had consumption and had been given the best of attention by Dr. F. H. Russell and Jailer Ed. Capps. The remains were turned over to Thos. Kilvera, the colored undertaker, yesterday. Jackson was buried at the government's expense.

MUNICIPAL AFFAIRS

Special Meeting of Board of Aldermen to Pass Upon Liquor Licenses.

FIFTY-SEVEN WERE GRANTED

Large Number of Other Matters Considered and Much Important Business Transacted—Several Appropriations Made.

A special meeting of the Board of Aldermen was held last night primarily for the purpose of passing upon applications for renewal of liquor licenses. A committee had been appointed to examine these applications before the meeting and make report upon same, therefore the granting of them upon recommendation of the committee was a mere formality. However, many other matters came up during the session and before the hour of adjournment was reached shortly after 11 o'clock, the session had attained the proportions of a regular meeting. Appropriations were made one after another, subject of course, to concurrence by the Board of Audit and Finance, contracts were awarded for city supplies for the ensuing fiscal year and many other matters of more or less importance were acted upon.

All members of the Board were present except Alderman Moore and at the opening of the session, Alderman O'Brien stated that he and one or two of his colleagues had visited Mr. Moore at the hospital and found him cheerful and bright and completely out of danger. Mr. Moore asked to convey his greetings to the Board and assure his colleagues of his regret at being unable to be present. The Board received with evident pleasure the good news from the absent member.

Business was taken up with a re-opening of the matter of the paving of Chestnut street between Front and the river. Messrs. Matthew and O'Brien, city engineers, were present with a blue print of the proposed improvement, and Messrs. L. B. Rogers and Isadore Bear were present, representing the property owners who desire the improvement. The matter was discussed at some length and a motion finally prevailed that the committee and Mr. Rogers appear before the Board of Audit and Finance with the figures necessary and urge the appropriation at once.

The applications for renewal of liquor licenses were then read and adopted as a whole. Mr. O'Brien, of the committee, said that they had been carefully gone over and were found with a few corrections to be in proper form. Owing to the illness of Alderman Moore, he was unable to be present, but in his stead Alderman Karr had acted. The city attorney was also present. At the close of the meeting the committee was authorized to pass upon any renewals that had not reached the Board in time for action last night. These will be reported upon at the regular meeting of the Board on the first Monday night in July. In reading over the list Alderman Price inquired if Messrs. Steljes and Stoller had not been before the court for a violation of the law and if the Board of Aldermen had power to grant license where there had been a violation of the law. The Mayor explained that the violation charged against the applicants named was merely a technical one in the matter of closing a few minutes late on Saturday night, and that he had fined them as an example to others that the closing law would be strictly enforced. Alderman W. H. Yopp asked about the violation charged against Rothschild & Co., in Columbus county. There was no record that there was a conviction in the case and the matter was passed over. The following were granted license, provided all arrears are paid to July 1st:

H. L. Litgen, No. 8 South Second.
Herbert Steljes, Thirteenth and Market.
J. E. Taylor, 802 Castle.

H. T. F. Wrede, 601 Red Cross.
J. C. Walton, 619 Castle Street.
J. S. Westbrook, Fourth and Bladen.

There are 57 licenses all told with three or four yet to come in. There are no new locations, though there are one or two transfers of license from one person to another.

In response to bids advertised for by the Mayor, contracts for city supplies for the ensuing year were awarded as follows:

City Livery Company, feeding, shoeing and housing city live stock and providing shed for vehicles at \$13 per month. S. J. Davis bid \$13.25.
Roger Moore's Sons & Co., lime at \$1.05 per barrel; building brick at \$7.75; paving brick at \$9.00 delivered; cement, \$2.25 in barrels; sewer pipe, from six cents for 4-inch to \$1.05 for 24-inch. Mr. Price raised the point that Alderman Moore was a member of the bidding firm and that he could not contract with the city as such. Several stated as a fact that Alderman Moore was not a member of the firm and the contract was awarded. Mr. Price voting in the negative.

A. W. Stellman & Co., and J. E. G. Brown each bid \$32 each for building four carts for the city, and it was decided to award the contract for two carts to each of the bidders.

The City Livery Company was awarded the contract for five sets of the best cart harness at \$18 per set. Mr. S. J. Davis, the only other bidder, named \$19.75 as the price for the best harness with two other grades as low as \$15.

The paving around Fourth street market and engine house was awarded to Fitzgerald & Co., at \$307.80. The Cape Fear Paving and Construction Co., bid \$456.59 and Threatt & Davis, at the rate of \$1.80 per square yard.

Upon recommendation of the Streets and Wharves Committee, contracts were awarded to Thad. F. Tyler for building a shed, 40x50 feet in size, in the city pound for sheltering the carts, at \$290 and for rebuilding Sixth street bridge, recently damaged by the heavy rains, at \$275.

Contract for city advertising was awarded to the Morning Star at 40 cents per inch for the first insertion and 20 cents for each subsequent insertion; Springer Coal Company, for coal, at \$7 for anthracite, \$5.50 for Jellico lump, \$4.75 for Virginia and \$4.40 for Pocahontas; Consumers Ice Co., for ice at 40 cents per hundred, and Mrs. Jane Sheehan for feeding prisoners at 12 1/2 cents per meal.

The city engineers submitted blue prints of the drains condemned by the Board of Health and estimates of the cost of placing terra cotta pipe in the same, the whole amounting to something over \$1,900. Alderman King and Brown wanted an amendment tacked on to include six blocks from Seventh and Wooster streets, where they explained the conditions were very bad, and Mr. Johnson called attention to the pressing need of better drainage at Ninth and Chestnut. Mr. O'Brien told how the building of macadam made more drains necessary to carry off the water and pointed with pride to the drains recently laid in connection with the North Fourth street paving. The report of the city engineers was finally adopted and an appropriation of \$1,900 was made for the work, the Board of Audit and Finance concurring. The matter of the other drainage was referred to the city engineers for report at the next meeting.

Mr. Price for the Library Committee, explained that it would cost \$1,100 of the \$1,200 annual appropriation for the public library to fix up the hall upstairs in the City Hall to receive the books as tenders by the Sorosis and he asked and was granted an additional appropriation of \$600 for making.

THE COUNTY SELLS

Old Court House Property Purchased Yesterday by Mr. James F. Woolvin.

THE CONSIDERATION \$16,720

Will Erect Handsome Buildings With Apartments on Upper Floors—The Deal Consummated—Other County Affairs.

At a special meeting of the Board of County Commissioners yesterday afternoon a sale of the old Court House property, on Princess street, was effected to Mr. James F. Woolvin, the well known funeral director who will remove the present unsightly building on the site and erect thereon a handsome three-story structure to be occupied for business and residential purposes. The price paid was \$152 per front foot, or \$16,720 for the whole. All members of the Board were present at the special meeting and Mr. Woolvin submitted his bid verbally. Messrs. B. F. King and I. Shrier, representing Cape Fear Lodge of Odd Fellows, owners of the property abutting on the east were present and asked that the sale of the lot be postponed thirty days as they wanted to submit a bid for at least a few feet of it adjoining their building. It was stated that the public had fair notice of the proposed sale and Mr. Woolvin stated that in case of a postponement, he would reserve the right to withdraw his bid at any time. In this view of the case, the Commissioners voted to sell and official entry to this effect was made. The sale is subject, of course to survey but the deeds of the county call for 110 feet on Princess street and 66 feet depth. It was made a part of the agreement between Mr. Woolvin and the Odd Fellows he would sell to them three feet adjoining their building.

Mr. Woolvin has also secured an option from Mr. W. D. McMillan, Jr., for a part of his lot in the rear of the old Court House, 23x50 feet in size. Mr. Woolvin announces that he will begin at once the erection of a handsome store for himself on the east end of the lot, something like 23x100 feet in size and that later all the old Court House will be removed from the site and he will build on the remainder four handsome stores, with living apartments on the second and third floors. These will be modern in every respect and will be fashioned after similar apartments in the North, making a most desirable place of residence. The front of the buildings will be of press brick and granite trimmings and will be of an architectural design second to none in the city. The store which Mr. Woolvin will build first will be occupied by himself and he has signified his purposes to establish there one of the most up-to-date establishments belonging to an undertaker in the State. This building will be ready for occupancy not later than October 1st. Mr. Woolvin contemplates the formation of a stock company to own the other buildings which will be placed on the site.

Other business before the Commissioners yesterday afternoon consisted of an award of the contract for the reinforced concrete bridge over Mill Creek at the National cemetery to W. E. Glenn, for \$930.50. It will have a 25-foot span and will be one of the best bridges in the county. The committee was instructed to employ Capt. Walter G. MacRae to superintend the construction of the bridge for the county. H. A. Colvin was appointed to survey certain lands for D. L. Gore and wife in Cape Fear township. The Board adjourned subject to call.

AT SAINT ANDREW'S CHURCH.

Two Interesting Services Sunday—Odd Fellows' Memorial.

Two services of great interest were conducted at St. Andrew's Presbyterian church Sunday. In the morning there was a very large congregation to hear Dr. McClure and there were several additions to the church membership, making 40 new members received during the last three months.

At night for the annual memorial service of the Odd Fellows of the city, there was another very large congregation, including a large attendance of members of the order who assembled at their lodge room and attended the services in a body. Dr. McClure chose as his text for the annual sermon the thirteenth verse of the twenty-ninth chapter of Job, and his discourse is spoken of as having been very strong and of especial interest upon the memorial occasion. Excellent music was furnished by the choir, an especial number having been a beautifully rendered solo by Mr. Greene Fenley, "One Sweetly Solemn Thought." The service was greatly enjoyed by the large congregation.

Advertisements kept under the head of "New Advertisements" will be charged fifty per cent. extra.

Advertisements to follow reading matter, or to occupy any special place, will be charged extra according to the position desired.

ELASTIC CURRENCY.

The bankers of this country have demanded some legislation from this Congress, but they are not likely to get it although there are several bills supposed to provide an elastic currency, especially in the period when crops are moving in the different parts of the country, notably in the South and West. When the crops are to be marketed there is a big drain of money from the financial centres and, therefore, all sections of the country are interested in an elastic currency.

At the request of a large number of bankers and business men in various parts of the country, Representative Lovering, of Massachusetts, on the 15th instant, introduced in the House a bill "to make the currency responsive to the varying needs of business at all seasons and in all sections." The bill is similar in general scope to the one favorably reported to the House by the Committee on Banking in 1901. Mr. Lovering explained that it had been modified in several particulars to meet the evolution of currency conditions during the past five years.

The bill, Mr. Lovering declared, is one of the simplest which has been introduced dealing with the complicated subject of the currency. It is provided that circulating notes, in addition to those now issued upon bonds, may be issued by national banks to the amount of twenty per cent. of the capital of the issuing bank. This provision is limited, however, by the requirement that notes thus issued shall not exceed one-half of the face value of the United States bonds on deposit to secure notes authorized under existing law, so that a bank will be required to have its full share of bond secured notes. A guaranty fund, for payment of notes of failed banks, is established against the new notes to the amount of 5 per cent. of their face value, and this fund is to be reinforced by the proceeds of a tax or one-half of 1 per cent. per annum on the new notes, and also by the premium upon the bonds deposited to secure the notes issued under existing law.

The bill differs from the one reported to the House five years ago in authorizing new note issues to the amount of 20 per cent. of capital instead of 10 per cent. It provides further that after four years the proportion of notes issued may be increased to 40 per cent. of capital. The bill of five years ago authorized an increase by two steps to 20 per cent. after three years, and to 40 per cent. after six years.

Mr. Lovering says he thought that a primary issue of 20 per cent. would

be approved by those who favored any elasticity to the currency system, since it would amount at the highest possible maximum to only about \$170,000,000 upon the present bank capital, and an issue of only 10 per cent. or half this amount, would hardly be adequate for an emergency.

Mr. Lovering added that he believed public opinion had made rapid strides in this matter during the past five years, and that for this reason he felt justified in modifying his bill and bringing it again to the attention of Congress. His bill leaves it to the discretion of the Comptroller of the Currency to refuse applications for circulation. "If for any reason relating to the condition of the bank making application for such notes the general state of the circulation, or the foreign exchanges, he shall deem such action to be inexpedient."

Upon introducing his bill the other day, Mr. Lovering explained that he did not intend to antagonize the bill reported by Mr. Fowler, chairman of the Banking Committee, but he hoped that at the next session of Congress comparison of this bill and his own with that to be prepared by the New York Chamber of Commerce Committee would result in legislation.

The New York Chamber of Commerce has a bill to submit to Congress, but evidently none of the bills will be considered till the next Congress meets. Congress seems to be a little slow in tackling financial legislation, although the Republican party would have us believe that it knows all about the money business.

Farm Labor Scarce in Massachusetts.

There is complaint of a scarcity of farm labor even in Massachusetts. Dissatisfaction is also expressed with the inefficiency and quality of workers on the farms. The Massachusetts "Crop Report" for May says:

"Judging from the returns, there is an unusual scarcity of farm help the present season. There is much complaint as to the quality of that to be had, but it is probably not below the usual average of the same class of labor in former years. The highest efficiency is not to be expected in any but a very few of those content to be wage earners, either on the farm or elsewhere, and farmers are perhaps inclined to set their standard for 'good help' too high, calling only the best good, though not expecting to secure the measure of efficiency they hope for. Wages average about \$20 per month with board in the strictly farming districts, and a little higher near the cities. Twenty-eight dollars per month would perhaps be a fair average of the wage paid without board, where tenement, milk and firewood are furnished, and \$35 without any of these accessories. For day farm workers are generally obliged to pay \$1.50 per day, and higher prices during haying and harvesting."

Massachusetts is a manufacturing State and probably the best labor drifts to the manufacturing centres where labor is better paid. That also accounts for the high prices for farm labor, as good prices have to be paid to keep labor on the farms. It is evident that labor shirks farm work in Massachusetts, and that will be the case anywhere when there is a wide disproportion between prices for work in the agricultural districts and those paid in the manufacturing centres.

The time the South becomes a manufacturing country the scarcer will farm labor become, unless prices for labor along with other advantages equal the prices for labor in the industries. Higher prices for labor in the South makes it impossible to make cheap cotton any more, and we might as well say again that The Star favors top-notch prices for cotton in order to keep good labor on the farms so the world can be assured of all the cotton it needs in its business.

DRUG ADDICTION WAS TERRIBLE

Eight Weeks at Greensboro Keeley Institute Saved Life of Man Ready for the Grave.

The Keeley Institute, Greensboro, About six years ago I was taken N. C.

sick. The doctors who attended me said I had nervous prostration; I was so nervous I could not lie on the bed, and to sleep was impossible, unless I was under the influence of drugs. The disease was bad enough, but I soon found that these drugs would kill me before the disease. The physician who was attending me at that time, and who had taken the Keeley Treatment, advised me to go to your institution and be treated. My son wrote to you, explained how I was afflicted and asked your advice. You replied by saying come at once; we think we can cure you. After much persuasion by my friends I decided to go. When I arrived at the Institute I found lawyers, doctors, judges, ladies, etc., taking the treatment. Every department of the institution is run very systematically; board is all that could be asked for; baths are excellent; some one to wait on the patients night and day. I staid at the Institute eight weeks. When I went there I was very feeble and did not think there was any chance for me to live, but I was entirely cured and now am well and weigh 185 pounds. Had better health since taking the treatment than I ever had before. All of my family and I think the Greensboro Keeley Institute one of the greatest institutions. I believe I owe my life to it. I saw people come there objects of pity and went home well and happy, and to make their families happy. There are those suffering from nervousness, drunkenness and the drug habit, who, if they knew the virtue in the Keeley Treatment as I do, would soon be well. It is our Christian duty to try to influence our neighbors who are suffering from these diseases to take the Keeley Treatment. If they are not able to bear the expense we should go to the relief of their wives and little ones and help them to beat it.

Baron von Sternberg, the German Ambassador, has drawn a striking parallel between the maxims of the Chinese Emperor Kang-Hi, who reigned a thousand years or more ago, and the utterances of President Roosevelt. The idea, we suppose, is that Kang-Hi was a plagiarist, but it's a shame to make wanton charges against a fellow after he is dead.—Norfolk Landmark.

The sins of the mosquito continue to multiply. Not only is the pestiferous thing responsible for yellow fever and various other sorts of fever, but now it is charged with causing blindness as well. In Connecticut recently a mosquito bit a man on the eyelid. In a few hours the victim of the bite was blind. He was carried to a hospital and physicians set to work on him. They have hope of saving the eye, but the fact remains that the mosquito did all it could toward putting it out.—Savannah News.

The newest stories in connection with the divorce scandal of the W. E. Corey is that Mrs. Corey, who is suing for divorce, is to get \$3,000,000 from her husband, the president of the steel trust, and that as soon as the decree has been issued he is going to marry a New York society woman. The actress has disappeared from the case. Having a pot of money Corey is said to be ambitious to enter New York society, wherefore he has discarded the wife of his young manhood and struggles and will marry a society woman. Oh, the magic of millions!—New York Times.

The pluck and grit of the American boy is shown by the fact that a newspaper boys' association in Boston voted to send one of its members to Harvard. The association started a fund of \$5,000 for a scholarship at that university and has raised half of the sum, and President Eliot has agreed to accept the present interest on the amount until it grows larger. That the first thought of this association was towards the higher education, and a determined effort to secure it, is an illuminating instance on the success of Americans which to Europeans is such a surprising thing.—Baltimore American.

Five or six hundred more inspectors in the bureau of agriculture, all to be well paid by the government, are provided in the meat inspection bill which has been adopted by the House Committee on Agriculture by a vote of 9 to 7. A fine lot of political patronage for Mr. Roosevelt, surely, and he never felt a moment's regret that he sent Nellie and Reynolds to Chicago. The cost will be a mere matter of three millions or so. The best thing about the new House measure is that it has been made to conform to the Federal constitution in its terms.—Hartford Times (Dem.).

LOCAL DOTS.

—The steamer Tar Heel, which has
been on the ways here for some time
undergoing a thorough overhauling,
will resume her schedule on the Cape
Fear River to-day.—The scores in the Lumina bow-
ling contest last night were as fol-
lows: R. G. Stokley, 163; J. McRee
Hatch, 177; E. Fowler, 127; E. N.
Moise, 157, and L. W. Austin, 156.—The Board of Audit and Finance
of the city will meet to-night at the
usual hour. A number of matters of
importance from last night's special
meeting of the Board of Aldermen are
expected to come up.—A little daughter of Mr. C. D. Ja-
cobs has recently undergone an opera-
tion for appendicitis at the hospital.
Friends will be glad to know that the
little girl is doing nicely and is now
thought to be out of danger.—During the thunder storm yester-
day afternoon lightning struck a chim-
ney at the residence of Capt. Robert
Green, on Red Cross street, between
Front and Second. The chimney was
completely demolished and the occu-
pants of the house badly frightened,
but no one was injured.—Mr. Archie King, a well-known
fireman, suffered an acute attack of
appendicitis Saturday night and was
taken to the hospital for an operation
Sunday morning. The operation was
very successful, but Mr. King is not
yet out of danger. Dr. Russell is at-
tending him.—A freight train on the W. C. & A.
Division of the Atlantic Coast Line
was wrecked yesterday morning near
Lake Waccamaw, caused by a brake
rod falling underneath one of the cars.
No one was hurt. Other trains had
to transfer at the scene of the wreck.—Building permits were issued yes-
terday as follows: R. H. Northrop,
one-story, six-room dwelling, to cost
\$650, on Meadow, between Eighth and
Ninth streets; R. L. Johnson, contrac-
tor, George O. Gaylord, five-room
dwelling, to cost \$350, at corner of
Fanning and Anderson streets.—John Haritos, a Greek, who keeps
a restaurant near Lumina, on the
beach, was fined \$10 and costs in Jus-
tice Furlong's court yesterday for an
assault on a small colored boy. It
appears that the boy had been running
around the place of Haritos, making
sport of him. The foreigner stood the
gibes as long as he could, then ran out
after the African and administered a
severe chastisement.—There was a very heavy rainfall
in the city again yesterday afternoon
between 6 and 7 o'clock. While the
Weather Bureau recorded less than an
inch of fall, it came down so rapidly
during the storm that streets and gut-
ters were filled to overflowing and
quite a little damage was done. The
rainfall since the first of the month to
date has been between eight and nine
inches.—From deeds filed for record yester-
day, the following property transfers
appear: James Oscar Biggs and wife,
of Pender county, to George O. Gay-
lard, for \$200, property on east side of
Front, 165 feet north of Meares street,
23x100 feet in size, and Allan E. Jack-
son and wife to Randall Mayo and
wife, for \$49, property on north side
of Wright, 49½ feet west of Thirteenth
street, 49½x132 feet in size.—Rev. Braxton Craig, of Rocky
Mount, was heard by large congrega-
tions at the First Baptist church Sun-
day in the absence of Pastor Hale, who
remains at Rocky Mount a few days to
assist with the revival meeting there.
A number of other Wilmington pulpits
were filled Sunday by visiting minis-
ters here for the Summer School at
Wrightsville, and all of the sermons
are spoken of in the highest terms.—A young man named Thos. Delmar
had a narrow escape from drowning
in the surf at Wrightsville Beach
Sunday afternoon, having gone down
twice before he was rescued. He was
brought in at a dangerous risk to him-
self by Life Saver Gilbert Phillips,
regularly employed there. Capt. H. H.
Hall and others in a surf boat attempt-
ed to get out to the young man but
they were unsuccessful.

MUNICIPAL AFFAIRS

(Continued from page one.)

ing the necessary repairs to the hall,
the Board of Audit and Finance con-
curring.Mr. Johnson sprung a surprise by
offering a proposition that the im-
provement of Red Cross street to the
hospital for the present be confined
to a 20-foot roadway from Fifth street
and that the committee proceed at
once concurrently to macadamize
Eighth street, between Princess and
Dock and Princess from Ninth to
Tenth. This was resisted by Alder-
men Karr and Rathjen, but finally the
proposition was carried under a mis-
understanding that the Red Cross
street work was to be continued from
curb to curb. The misunderstanding
was discovered quick enough for a
reconsideration and the proposition
was voted on so that Mr. Johnson's
work will be done next after Red Cross
is paved from curb to curb. Mr. John-
son said that if the Red Cross street
work is to be done first all the funds
would be taken up and he forcibly ex-
pressed himself on the neglect of the
Third ward in the distribution of
street improvement. Aldermen W. E.
Yopp and Brown also wanted Fourth
between Nun and Castle macadamized
and Mr. Price wanted the east half of
Fifth, from Dock to Nun street, re-
paired, but that too was lost in the
shuffle.Another fight was precipitated by
the insistence of Chairman Karr, of
the Police Committee, that Messrs. B.
F. Reaves and M. E. Guy be elected
to permanent positions on the force.
Mr. Johnson reiterated his charges
against the men and Mr. Karr denied
that they had been substantiated. Mr.
Johnson nominated Mr. E. H. Dement
to fill one of the places and Alderman
W. E. Yopp nominated J. T. Smith
for another. Messrs. Rathjen and
Brown moved that the report of the
committee be adopted. Mr. King
moved that the vote be by ballot. On
the first ballot there was some con-
fusion and another was ordered with
the result that Reaves received six of
the nine votes, Dement five, Guy four
and Smith three. Messrs. Reaves and
Dement were elected. Mr. Karr then
facetiously moved that Mr. Johnson be
elected to compose the police commit-
tee by himself. Mr. Johnson replied
hotly, and Mr. W. H. Yopp moved to
proceed to business.A communication was read from
Messrs. Leitner & Wilkins, C. B. Cooper
and Chas. McMillen protesting that
a competitive architect should not
hold the office of building inspector,
for reasons stated in a former letter.
The matter was referred to a special
committee composed of Messrs. John-
son, Rathjen and King.The Standard Oil Company was
granted permission to change the lo-
cation for its proposed reservoir for
petroleum products to corner of
Second and Brunswick streets.An official receipt and a very grate-
ful letter was received in acknowledg-
ment of the \$1,000 appropriated for the
benefit of the San Francisco sufferers.Alderman O'Brien referred to the
nuisance of unloading fish scrap so
near inside the city. The matter was
referred to the Ordinance Committee.The Mayor called attention to the
pressing need of a crematory for dis-
posing of the city's garbage. A resolu-
tion was agreed to inviting Judge A.
O. Wright, of Jacksonville, Fla., to
come to Wilmington and explain a
proposition submitted some time ago
for the installation of a plant here.Mr. O'Brien moved that the city en-
gineers of Wilmington be associated
with the expert coming here to as-
sess the value of the water works
plant. The law in this regard was ex-
plained with the nature of the work
and it was decided that only the ser-
vices of the expert will be needed for
the present.City Engineer Matthew called atten-
tion again to the need of re-establish-
ing the street lines all over the city
and putting in centre blocks all over
the city. He estimated that this
would cost \$5 per stone, or a total of
\$2,500. He spoke at length on the
need of definitely establishing the
lines. The work was finally ordered
done by Mr. Matthew in connection
with Capt. Walter G. MacRae, the
Board of Audit and Finance concur-
ring. Mr. Price voted in the negative
on the proposition.Chairman W. H. Yopp, of the Fi-
nance Committee, reported that the
committee had instructed the city
treasurer to assess property and li-
cense tax against the North Carolina
Cotton Oil Co., it having recently
developed that a part of the plant is
in the city limits. He said that the com-
mittee would see that the Board of
Assessors next year had the property
entered for taxation in the city and
that the lister assess the same against
the company this year.The usual loan of \$40,000 to tide
the city over the summer months until tax
gathering time was authorized, the
amount to be borrowed as needed.At the request of Mr. Schloss, who
regarded the amount excessive, the
license tax on bill posters and distrib-
utors was reduced from \$100 per year
to \$50, the same as last year. The
committee refused to reduce the tax
to the former rate of \$7.50 per quarter
on real estate agents. The tax was
recently raised to \$10 per quarter. Mr.
Yopp said that there was a great activ-
ity in real estate now and that if the
dealers were not profiting by it the
fault was theirs.

Mr. Yopp again offered his proposi-

tion for having the record of fines and
forfeitures from the police court han-
dled through the office of the City
Clerk and Treasurer. The Mayor read
the law, which provides expressly that
these funds, except the costs, are to
be turned over to the county treasurer
for the school fund and Mr. Yopp did
not press his motion.The Board a little after 11 o'clock
adjourned.

DISCRIMINATING LADIES.

Enjoy Using Herpicide on Account of
Its Distinctiveness.The ladies who have used Newbro's
Herpicide speak of it in the highest
terms, for its quick effect in cleansing
the scalp of dandruff and also for its ex-
cellence as a general hair-dressing. It
makes the scalp feel fresh and it allows
that itching which dandruff will cause.
Newbro's Herpicide effectively cures
dandruff, as it destroys the germ that
causes it. The same germ causes hair to
fall out, and later baldness; in killing it,
Herpicide stops falling hair and prevents
baldness. It is also an ideal hair dress-
ing, for it lends an aristocratic charm to
the hair that is quite distinctive. Sold
at leading druggists. Send 10c. in stamps

CANAL PROJECT TO GREAT LAKES

Senate Yesterday Passed Lake Erie and Ohio River Waterway Bill.

TILLMAN AND HOPKINS MIX

South Carolina Senator Insists That National Banks Which Contributed to Campaigns Should Be Investigated—No Immunity Bath.

By Wire to The Morning Star.
Washington, June 18.—After another day devoted largely to debate on the Lake Erie and Ohio river canal bill, the Senate to-day passed that measure with only eleven votes in the negative. In addition several bills to which there was no objection received favorable action. There also was further discussion between Senators Tillman and Hopkins on the resolution of the former for an investigation of the question of national bank contributions to political campaigns which involved renewed reference to the failure of the Chicago National Bank.

Speaking of the resolution Mr. Tillman said that Senator Aldrich had waived aside the resolution on the ground that the Senate had recently passed a bill prohibiting the banks from making campaign contributions, but Mr. Tillman contended that such action on the part of the Senate was not sufficient. Believing that the banks were the principal source of revenue of the Republican political committees, he did not believe that the House will pass the bill prior to the election of next fall. Hence he still felt the necessity for the investigation provided for by his resolution. He insisted that the resolution should be retroactive, but confessed that he had little hope in this direction. "The bankers will get an immunity bath for past offenses," he predicted.

Speaking of the Chicago bank failure, Mr. Tillman presented extracts from testimony of Banker Fenton, of Chicago, taken by the House Committee on Banking, to the effect that the disaster was due to loans made by the bank to concerns in which the President of the bank (John R. Walsh) was interested. He claimed that this testimony showed that the Comptroller of the Currency had known for months before this failure that the bank had in effect loaned \$15,000,000 to its president.

Mr. Hopkins charged Mr. Tillman with an effort to tie the hands of the Department of Justice. He charged the South Carolinian with a desire to injure the Chicago banks and to exploit himself. "I say to the Senator that he could not serve Wall Street better," he said, "for Wall Street wants to get control of the Walsh interests." He again declared that the transactions in Chicago had been entirely straightforward and honorable.

Y. M. C. A. WORK AMONG SAILORS

Millionaire to Add \$250,000 to Miss Gould's Work at Norfolk.

By Wire to The Morning Star.
Norfolk, Va., June 18.—Official announcement was made here to-day that a millionaire merchant of New York, has agreed to give over \$250,000 for the erection of a handsome home for the Norfolk Naval Young Men's Christian Association which was established here through the interest taken in such soldier and sailor work by Miss Helen Gould who has aided the work and practically maintained it since it was begun several years ago. The name of the New Yorker who has made the gift is being withheld for the time being.

As the result of the presence of several battleships there are now at the Norfolk navy yard over 4,000 sailors and marines. Ordinarily there are from 2,500 to 3,000 men at this naval station.

The President sent to the Senate yesterday the nomination of George H. Brown to be collector of internal revenue for the Fifth District of North Carolina.

WOMEN WEeping AMONG THE DEAD

Heartrending Particulars of Massacre of Jews at Bialystok Last Week.

HUNDRED AND FIFTY SLAIN

Enormous Number of Wounded—Horrible Brutality of Merciless Mob—Dead Lay in Streets Three Days—Troops in Charge.

By Cable to The Morning Star.
Bialystok, Russia, June 18.—The situation is still not entirely tranquil. A recurrence of the trouble is still impossible. The streets are filled with Cossacks and infantry.

The correspondent of the Associated Press, who arrived here yesterday but who was not allowed to telegraph until to-day, found the story of the riot written in large letters in the aspect of the streets, which were one continuous picture of arson and pillage. The windows and doors of the Jewish houses were wide open, giving a view of their wrecked interior, or were boarded up with rude, wooden shutters. Everywhere could be seen weeping women hunting for traces of killed or wounded relatives. The principal stores were either devastated wrecks or mere mounds of ashes among which the wretched proprietors, last week rich but now reduced to poverty were wandering about weakly endeavoring to ascertain the extent of their misfortunes. Before practically every house left intact, hung an ikon with a burning lamp and the street doors were marked with great crosses, made with chalk or of cloth, to show that the inmates were Christians. The streets were patrolled by strong detachments of cavalry and infantry and the cordon of troops drawn around the town when the outbreak first occurred was still maintained. The railroad station was occupied by the military and nobody was allowed to enter the town without a permit from the commandant. Strict martial law prevailed.

Another attack was made yesterday evening on the police station by armed revolutionists, who occupied a house nearby. They opened fire from the building on the police, but a force of stormed and the revolutionists were dispersed. It was feared that the latter, who are members of the Jewish Bund, and are enraged and embittered by the slaughter of their co-religionists, would seize the occasion of the funerals of the victims to-day to make a new attack, but the governor general took the necessary military measures to prevent it.

On account of the destruction of the stores of provisions, supplies are almost unobtainable here just now, but food is being imported to relieve the destitution.

The scene at the Jewish hospital where the majority of the Jewish dead and the most severely wounded were taken was terrible. When the correspondent arrived there the grass plot outside the hospital was covered with mangled corpses arranged in two long rows, awaiting burial. The wooden walk from the gate to the door over which the bodies were carried was stained with blood. The dead and wounded were still arriving. Many of them had been lying untouched in the streets for two or three days. Only the most severely wounded were taken inside the hospital. The bodies of some of these were frightfully bruised, broken and mangled. A constant stream of unhappy persons visited the hospital, endeavoring to locate and identify members of their families or friends or obtain the bodies of dear ones for burial. Some of the bodies had already been removed, but the hospital attendants asserted that about a hundred in all had been brought in and that many more remained in the outskirts of Bialystok, where it was still unsafe for the Red Cross detachments to venture.

FORMER BANK CLERK

TURNED KIDNAPPER

(Continued from Page 8.)
while had followed the pair and reached the first floor as the arrest was made. The kidnapper and his captive were hastened to the next police station and from there taken in a patrol wagon to the City Hall.

The news of the capture had reached the centre of the city, and when the prisoner and boy arrived at the city hall a great crowd had gathered. Kean, white with fear, trembled so that he could scarcely walk and begged the detectives not to let them kill him.

With the boy he was taken into Mayor Weaver's office and the Mayor immediately communicated by telephone with Mr. Muth, who hastened to the Mayor's office, and the meeting between father and child was most affecting. When his father and child had ceased to hug and caress, Freddie drew several small coins from his pocket and showed them to Mr. Muth, saying in his childish way that the man had given them to him.

The child bore no evidence of ill treatment beyond lack of sufficient nourishment. He had been fed on bread and milk which Kean had stolen from door steps. When found he had a couple of crusts of bread in his hands and his school book was under his arm. The abductor, as he sat to

be photographed, was the picture of misery. He shrank from the gaze of the detectives and newspaper men, and when making his statement to Superintendent of Police Taylor, he broke down and sobbed.

Not since the abduction of Charlie Ross has this community been so wrought up by the commission of a criminal act. The newspapers in order to aid the police in tracing the kidnapper, were compelled to publish misleading stories for the purpose of throwing Kean off his guard. In the letters which the kidnapper wrote to Mr. Muth he threatened to kill the boy if his demands were not met. His letters were answered by Captain Donaghy through the "personal" columns of the newspapers, and apparently all of his demands were granted. The reward of \$1,000 offered by the father of the boy was accepted by Kean, and as a test he sent a letter to Mr. Muth requesting him to send \$200 to a certain address, the remainder to be paid later.

RAIN RETARDING TOBACCO.

Transplanting Interfered With and Acreage is Doubtful.

By Wire to The Morning Star.
Washington, June 18.—The Department of Agriculture announces that on account of the unfavorable weather for planting tobacco during the month of May throughout a large part of the tobacco growing area of the United States, it is impossible at the present time to give an accurate estimate of what the acreage will be this year. With the exception of some of the more southerly States, practically no tobacco had been transplanted up to May 25, when the reports were made to the Department. Statistics showing the acreage planted this year compared with that planted last year, and also the average condition by States, will be published July 10 by the Department.

CHIEF OF POLICE KILLED.

Roanoke, Va., June 18.—Chief of Police William Renfro, of Dorchester, Va., was shot and killed at this place last night by unknown parties. Renfro heard shooting in the suburbs of the town and started to investigate it, when he was fired upon, two shots taking effect and causing his death at an early hour this morning. The officer made a dying statement, saying that he did not recognize his assailants and so far there is no clue to their identity. Renfro had been chief of police at Dorchester, which is a mining town, for a number of years and was held in high esteem.

Millinery Department —IN— Geo. O. Gaylord's Store.

We are offering in this department special inducements this week in new style white sailor hats with bandeau effect at the low price of 50c., 75c., 98c. and \$1.25. This is a new lot of pretty goods and we are selling at about 25 per cent. less than the regular price.

We have just received a splendid assortment of white violets at 39c., 50c. and 58c. a bunch.

A nice line of blue, pink and white flowers for the midsummer trade. These are new and pretty goods and we are selling them for 25c., 35c. and 50c. a bunch.

In white and colored ribbon we are offering from No. 120 to No. 150 at 25c. per yard.

We have also just received a nice line of white chiffon hats and Neapolitan Braids that we are offering at a special price from 75c. to \$1.98 each.

We have not allowed our millinery stock to run down at all, but have kept it right up to standard and can supply your wants in nice hats, up-to-date styles in summer shapes, both white and colored and at a special low price.

Remember, we trim all the hats which we sell, free of charge, as we keep our milliners from one year's end to another. Every hat is sold on an absolute guarantee for satisfaction as to order given.

SILK SHIRT WAISTS. This week we have a special lot of nice shirt waist and shirt waist suits that we were fortunate in buying from a salesman at a reduced price, being his line of samples.

These goods are in good condition, taken proper care of and are of the latest styles. We bought them at a discount which enables us to sell at the actual cost price.

If you are in need of anything of the kind we will be pleased to have you examine this line before buying elsewhere.

BATH SUITS. For ladies and children, also rubber caps and white canvas shoes as well as swimming wings, which makes the bathing outfit complete. We have all sizes from 12 years to size 44 for women.

We also have a good line of bathing suits for men and boys.

SOME FIGURES ABOUT WEDLOCK

Statistics Showing the Number of
Married, Widowed and Divorced
Persons in United States.

(Baltimore Sun.)

The census report on population, just issued, shows that in the total population of 75,994,575 in 1900, the number of "single" persons was 43,982,965, or nearly 58 per cent. The married were 27,770,101; the widowed, 3,895,847; the divorced, 198,914. In the Old World the proportion of single is different, being 41.4 per cent. in India, 54.6 in Spain, 60.8 in England and Austria and 64 in Scotland. In Australia the figure varies from 65 to 68 per cent. In the Southern States the percentage of unmarried persons is 60.8, of married 33.7, of widowed 5.1, of divorced 0.2, while in the North the corresponding figures are 56.4, 38.0, 5.2, .02. The twelfth census shows 21,494 more negro wives than negro husbands, the women reporting themselves married more freely, it appears, than the men. But the figures, as respect the colored population, are open to question, many reporting themselves married when not legally married. "Of 40 couples at Cinclare, La.," says the report, "who reported themselves as married, only 20 were legally married in the church or by the civil authorities. Numerous cases are seen of two persons legally married and yet each living with a different person and reporting as being married to the second." In Porto Rico the same state of things exists to a large extent, owing to the cost of the necessary religious ceremony. In Maine, New Hampshire and Vermont the divorced are half of 1 per cent. of the population, while in Maryland and West Virginia the divorced were two-tenths of 1 per cent. and in Virginia one-tenth of 1 per cent. In Nevada the divorced are seven-tenths of 1 per cent., and in Washington, Oregon and California six-tenths of 1 per cent.

KILLED A MAN IN MAINE.

Then Flew to California and Lived
Forty Years Under Assumed
Name.

Sacramento Bee.

Walter Marvin Lancaster has carried his secret with him to the grave. He lived for nearly forty years in Bear Valley this country, under the name of John Lang, and nobody guessed that it was assumed until the facts came to light after his death. He blew his brains out.

The inquest developed that Lang was not the correct name of the decedent. A witness stated that a short time ago Lang told him that in case anything should happen he wanted it known that his true name was Walter Marvin Lancaster, and that he was a native of Maine. Lancaster further said that he had killed a man in Maine many years ago, but had been acquitted. Fearing that the dead man's friends would take his life, however, he said he had fled his home and changed his name to John Lang.

It was under that name he located in Bear Valley, set out a little orchard and built him a cosy home. He was highly regarded by all his neighbors, with whom he was on very friendly terms, though of his past life none of them had the slightest inkling. For years he conducted the Culbertson toll bridge at his home, but after it went out of commission like many others he still clung to the valley and seemed content to spend his days there. He was a man of gigantic build.

THE COTTON MARKETS.

New York, June 18.—The cotton market was unsettled and irregular with the old crop months weak under liquidation, while the new crop ruled relatively firm on less favorable crop news. The close was steady at a decline of 9 points to an advance of 3 points. Sales were estimated at 150,000 bales.

The opening was steady at an advance of 1 1/2 points, which was considered a poor response to firmer cables and continued dry weather in the Southwest. But the less favorable weather reports recently noted, and continuing over the week end did not appear to be bringing in any fresh demand, and this was disappointing to some of last week's buyers who sold right after the call. New Orleans after opening higher also eased off, and the market during the middle-session acted quite weak and unsettled with the declining tendency most apparent in the July option which reduced its premium over the later months to about 10 1/2 points and sold at a net decline of 13 points as compared with a loss of 3 1/4 points in the new crop months. Late in the afternoon there was a rally on covering, which was promoted by a private crop report placing the condition of the crop at 84.3 per cent. against 85.9 per cent. half a month ago, but July barely responded to the upward movement in the new crop months and closed only 3 points up from the low.

The forecast was for continued dry weather in the Southwest.

New York, June 18.—Receipts of cotton at the ports to-day 4,525 bales against 4,242 last week, and 8,576 last year. For the week estimated 30,000 against 29,450 last week and 78,057

last year. To-day's receipts at New Orleans 981 bales against 3,020 last year and at Houston, 1,213 bales against 2,447 last year.

Spot cotton closed quiet and steady 10 points decline; middling uplands 11.10; middling gulf 11.35; sales 1,300 bales.

COMPROMISE BILL FOR MEAT INSPECTION

President Roosevelt and Agricultural Committee
Come to Terms—Measure to Be Rushed
Through Congress—Government
to Pay Cost.

By Wire to the Morning Star.

Washington, June 18.—The basis of a complete agreement on the meat inspection legislation between President Roosevelt and the House Committee on Agriculture was arrived at today at the White House. Speaker Cannon represented the committee in this instance and subsequently spent some time explaining the situation to the committee in its room at the capitol. The bill was practically completed when the committee adjourned today.

It will authorize an annual appropriation of \$3,000,000 to pay the cost of inspection and will contain no provision for the levy of an assessment to make up any deficiency in the amount available for this work, as suggested by Mr. Cowan, representing the Texas cattle growers, and later urged by the President.

The court review provision will not be contained in this measure. This action meets the suggestion of the President. The words "in the judgment of the Secretary of Agriculture" will not be inserted as suggested by the President and this conclusion now meets Mr. Roosevelt's approval.

The section waiving the civil service law for one year in the selection of inspectors will go out of the provision, also one of the President's recommendations.

There is to be no date on the label of the packing of meat food products. In this the President yields to the committee. The language which gives inspectors the right to the packing plants at all times is amplified by the words "whether the same be in operation or not."

With these changes made, the President has indicated his entire satisfaction with the measure which was reported from the committee as a substitute for the Beveridge amendment and was today recommitted to the committee that the changes might be

made. Speaker Cannon was accompanied to the White House by Representative Adams, of Wisconsin, a member of the Agricultural Committee. Ordinarily the Speaker does not take the active part in legislation which he has in the present instance. It has been explained, however, that he regards the passage of an adequate meat inspection bill with all possible speed as vitally essential to the welfare of many important industries throughout the country.

The objection which was urged to the President as a reason why he should not insist on giving authority to the Secretary of Agriculture to levy a tax to make up any deficiency, was the constitutional provision that Congress shall levy all taxes. A head tax on animals, it was pointed out, would be an exceedingly unequal one, as the value of a fine beef steer would be much greater than a steer of inferior weight and condition, yet the tax would have to be the same. The same condition would prevail as to all other animals killed for food.

The guarantee of the constitution of every man's right to have his grievances heard before a court was also presented to the President forcefully as a reason why the decision of the Secretary of Agriculture should not be made final, as would be the case should the words "in the discretion of the Secretary of Agriculture" be inserted throughout the measure. In this argument, it is understood, the President acquiesced, on the ground of its containing a fundamental principle of guaranteed rights.

Although tomorrow and Wednesday have been set apart for the passage of bills under suspension of the rules in the House, it is probable that the agricultural bill will be sent to conference without delay.

FORMER BANK CLERK TURNED KIDNAPPER

Sensational and Dramatic Crime in Philadelphia by
Once Respectable Man—Kidnapped Jeweler's Son Because He Needed
the Money.

By Wire to the Morning Star.

Philadelphia, June 18.—Freddie Muth, the seven year old son of Jeweler Charles Muth, who was kidnapped from the Muhleburg public school last Tuesday, was found this afternoon in a vacant house and returned to his grief stricken parents. John Joseph Kean, a member of a respectable New York family, one time bookkeeper of the Harlem bank, a stockbroker, and more recently a real estate agent, is the abductor. He occupies a cell in the central police station with life imprisonment staring him in the face.

Replete with dramatic incidents from its inception, the climax of the abduction was sensational to a degree. The kidnapper was taken only after he had been fired upon and when he realized that escape was impossible. Kean is a married man, and the father of three children. He gave his reason for abducting the Muth boy that he needed money.

From the day of the kidnapping until the arrest this afternoon Kean had kept the child in the vacant house in West Philadelphia. Meantime the entire detective and police force of this city were conducting an unremitting search and the authorities of other cities had been furnished with a description of the boy and his captor with instructions to keep a lookout for the pair. Captain Donaghy, of the local detective force, however, was convinced that Kean and the child were in the city.

The first information that Kean and his captive were in the vicinity in which the arrest was eventually made, came from Joseph Sager, a baker at Sixtieth and Haverford avenue, who told a policeman last week that he had seen a man and boy answering the description of the pair in an oyster saloon at No. 6013 Haverford avenue, shortly after midnight last Wednesday.

Sager was acquainted with Kean and the police were thus enabled to obtain his address. They visited his home and learned from his wife that he had not been there with her knowledge since last Monday, the day previous to the abduction. She stated, however, that he had evidently crept into the house as a pillow, an overcoat and a cap were missing. With this clue to work on the police redoubled their efforts. They were certain of the identity of the man but all doubts in this direction were removed when Charles J. Cooke, a real estate dealer, appeared at headquarters with a complaint that John Joseph Kean, who had acted as collector and agent for him, had embezzled \$400. Specimens of his handwriting were shown the police and they found it to be identical with the writing in the letters which the abductor had begun sending to Mr. Muth.

Special officers Clare and Vale today instituted a search of the vacant houses in their district and they paid another visit to the dwellings Nos. 423, 425 and 427 North 62nd street. When Vale reached the third floor of No. 425 he observed Freddie Muth standing on the rear shed of No. 427. He called to him, saying "Hello, Freddie."

Freddie said: "Hello," and immediately began to cry. Vale leaped through the window and stepped across the roof to the adjoining house. He was just in time to see Kean hurrying down the stairs. Drawing his revolver he fired at the fleeing man, but missed. He crawled through the window and followed, catching up with Kean as the latter was making for the front door. The policeman again pointed his revolver at the kidnapper, who threw up his hands crying: "I surrender." The child in the meantime

COURT MARTIAL OF CAPT. GARST

Finding in Trial for Grounding
of Battleship Rhode Island
is Sustained

SUSPENDED FOR SIX MONTHS

Sentence Reduced From Twelve
Months—Captains of War Ships
Held to Strict Account for
Safety of Their Vessels.

Washington, June 18.—Secretary Bonaparte has completed his review of the case of Captain Perry Garst, U. S. N., and has approved the finding of the court martial, with a modification of the sentence. The court sentenced Captain Garst to suspension from duty for one year with half sea pay, and the loss of five numbers, for allowing the battleship Rhode Island to go aground. The Secretary reduced the suspension to six months.

The opinion is as follows: "After carefully considering the record and also the brief and argument of Captain Garst's counsel, the Department holds that the accused in this case has been fairly treated by a competent and impartial court, whose findings are fully sustained by the evidence. The captain's obligation of vigilance was, in the Department's judgment, not lessened but rendered more imperative by the facts that this was a 'shake down' cruise, that he had no previous personal acquaintance with the navigator. Without going into a discussion of technical questions respecting the course followed by the Rhode Island immediately before grounding, it seems clear that a culpable error was made as to the state of the tide and that, if the testimony of the two leadsmen is to be credited, no reason whatever being shown why it should not be credited, either insufficient attention was paid to the soundings or the speed of the vessel should have been reduced. How far the navigator may have been in fault need not be considered in this case; his negligence or of the captain; for, as article fifty-four, paragraph six of the regulations, says of the latter 'the command is his and he can neither delegate the duties of it to another nor avoid its burdens nor escape its responsibilities.'

"The Department considers that the good of the service requires the captain of every war vessel to be held to every strict responsibility for the safety of the ship and its officers and men. It is satisfied, from the record, that the accused failed to discharge himself of that responsibility, and it regards an adequate, but not an excessive, punishment as imperatively demanded in his case. The findings and

TOBACCO TRUST UNDER INDICTMENT

Government Charges Violation of Sherman Anti-
Trust Law—Monopolizes Licorice Supply
and Shuts Out Independent Companies—R. J. Reynolds.

By Wire to the Morning Star.

New York, June 18.—The Federal Grand Jury today handed down an indictment charging the MacAndrews and Forbes Company, the John S. Young Company, of Baltimore, and the presidents of the two corporations, Karl Jungbluth and Howard E. Young, with violation of the Sherman anti-trust law. The indictment is the result of an investigation into the so-called tobacco trust commenced by the Federal Grand Jury in May, 1905.

Bench warrants for the accused defendants was issued soon after the report of the grand jury was made.

The complaints which led to the investigation were made to the government by independent tobacco manufacturers that the M. Andrews and Forbes Company and the John S. Young Company had entered into an illegal combination to control in this country the sale of licorice paste. Without this commodity the independent plug tobacco manufacturers were unable to continue in business. It is alleged that the John S. Young Com-

pany, of Baltimore, under the agreement, supplied the independent manufacturers with the paste at prices fixed by the trust and that the subsidiary corporations of the combination, the Continental Tobacco Company, the American Tobacco Company, the American Snuff Company, the P. Lorillard Company, and the R. J. Reynolds Tobacco Company were supplied by the MacAndrews and Forbes Company.

The indictment contained a long series of correspondence signed by the accused both as corporations and individuals, all showing a control of the licorice paste market and a contract increasing price to be charged to the independent manufacturers. Letters to some of the independent manufacturers show a refusal to fill orders in one instance, a demand for two hundred cases being scaled down to fifty. Subsequently letters passing between the accused, stated that it was deemed unwise to fill such orders and permit the independent manufacturers to "stock up."

sentence of the court martial are approved, but in view of the court's recommendation of clemency, the period of suspension from duty on half sea pay, imposed as part of the sentence, is reduced from one year to six months.

Captain Charles G. Bowman, captain of the Pensacola navy yard, has been ordered to duty as captain of the battleship Rhode Island vice Captain Perry Garst.

STRANDED ON FIRE ISLAND.

Large Crew and One Passenger of
Steamer Rescued.

New York, June 18.—Late this afternoon the position of the stranded steamer Vincenzo Bonanno became so dangerous that it was decided to bring the crew ashore. They are leaving the steamer in a surf boat and by breeches buoy. The Bonanno which went aground on Fire Island bar during a fog last night is from Italian ports. Besides the crew there is one passenger aboard.

The wind and heavy sea this afternoon rolled the vessel considerably and the captain decided to leave the ship with his crew. The breeches buoy was put in use by the Point of Woods Life Saving crew, which has been standing ready to assist the stranded

mariners and two men were brought safely ashore in this manner. The remainder of the crew, thirty-one men, as captain of the steamer and the one passenger were brought ashore in the lifeboat at 4:30 o'clock this afternoon. All are now quartered at the Point of Woods life saving station. The steamer's captain and some of his men will go aboard the vessel again tomorrow morning.

An attempt to float the ship probably will be made at high water this evening. The wrecking crew W. E. Chapman is close by the vessel and with her assistance the steamer may be pulled off the sand. According to the captain of the vessel, she is in good condition, and he considers the chances of floating her good unless severe weather sets in.

The list of victims of Sunday's accident on the Louisville and Nashville Railroad bridge across Hiwassee river, near Knoxville, when a hand car loaded with people was run down by a train, was increased to six by the deaths of Sarah Blankenship and J. H. Brinkley, who died of their injuries shortly after the accident. The hand car was taken without authority, the railroad officials say. All persons on the car except two were thrown from the bridge into the river by the force of the collision.

GOV. PATTISON PASSES AWAY

Ohio's Chief Executive Died at His
Home in Milford—Prominent
Democrat.

Cincinnati, O., June 18.—John M. Pattison, Governor of Ohio, died at his home in Milford, a suburb of this city, at 4:20 o'clock this afternoon. He had passed a good night and there had been no report of any serious change during the day. During the early afternoon the news from his home was considered favorable and the later announcement of death came as a shock to the Governor's friends.
